

# Best of Both Worlds!

## Disposable Price      Autoclavable, Durable Design

- ☛ Manufactured with virgin, optically clear Lexan® polycarbonate resin that retains clarity after gamma radiation.
- ☛ Flasks are certified non pyrogenic and DNase\RNase free.
- ☛ Fits all standard clamps.
- ☛ Each flask comes with both vented cap (PTFE membrane 0.22 µm pore size) for sterile air exchange as well as a standard leak proof seal cap.
- ☛ Repeatedly autoclavable.
- ☛ Flat or Baffled base.
- ☛ Sterile or non-sterile.
